If a member with 20 or more years of service is required to temporarily transfer to another area, unit, department, or location, said member will receive an additional \$2 per hour for all hours worked in temporary assignment.

Decompression of Pay Grades

With the last contract negotiation, it was not the intent of SEIU to merge grades 8 - 13. The goal was only to move all workers who made less than \$15/hr to a rate of \$15/hr or more. It was an oversight in the end that needs correcting. This misfortune has caused a lack of incentive

towards promotions because promotions are now lateral moves; and entry-level positions that only require a high school diploma or G.E.D. now merged with certified or licensed positions.

SEIU propose to decompress pay grades from the previous contract. Please see the proposed adjustments in attachment A to rectify this issue.

This adjustment would require only (7) seven individuals to receive an increase to the minimum wage of their newly created grade.
